MICHIGAN AVIATION PROFESSIONALS TRAINING COURSE (MAPTC)

Airports 101 & Maintenance Workshop

Back-to-Back Format!

Attendees can attend one day or both.

YOU MUST REGISTER SEPARATELY FOR EACH SESSION.

On Monday, May 8, attend an informative workshop where industry professionals will discuss topics including airport operations, state licensing, planning & development, and environmental compliance.

On Tuesday, May 9th, the discussion will involve airfield maintenance issues including lighting, fueling, pavement maintenance, snow removal, obstruction removal, and special events. An airport tour will also be offered.

These workshops are a great opportunity for non-managers (boards and administrators) to learn more about the duties of an airport manager and responsibilities of an airport sponsor.

Can't make May?

Plan to attend the fall course, September 27, 2023, in Midland with registration opening in June 2023.

Class Location

Oakland County
Int'l Airport
Terminal Conference
Room

6500 Patterson Parkway
Waterford, MI 48327
